

TALBOT

"EOS"

Talbot, the doom-duo from Tallinn, Estonia, were first formed back in the 2003, but real activity started in August 2008.

After a month of rehearsals duo did their first show which was quite soon followed by debut EP "Tundra" (October '08).

Self released, DIY CD-R. In spring 2009 "Tundra" was re-released as a limited edition CD-R (100 copies) with two additional tracks via ConSouling Sounds.

After supporting Nadja (CAN) and doing some other shows in and out Estonia, duo went to their first European tour in May '09 - Tour De Solara 2009. Followed by "Sarkasms Open-Air 2009" in Latvia and Estonia's biggest indie-festival "Plink-Plonk" + more gigs in Estonia & Finland. Duo has now released their debut LP "EOS" and the journey can go on.
